

SERVICE SAFETY REPORT

COMPANY _____

RA# _____

INSTRUMENT _____

To provide a safe work environment for our employees we need you to provide as much information as possible about the solutions used in your CETAC unit.. We understand that it is not possible to list every type of solution. However please list the major components of the solutions that have been introduced into the instrument. Prior to shipping the instrument to CETAC please rinse and drain the unit with deionized water. Thank you in advance for completing this form.

Below are two examples of how to complete this form:

<i>Solution Type</i>	<i>Approx.</i>	<i>Conc.</i>
<i>(e.g.) HNO₃ & HCl</i>	<i>3% HNO₃ & 5% HCl</i>	
<i>(e.g.) Toluene</i>		
-----	-----	
-----	-----
